

Job Title: Urban Designer | Street Designer

Location: Oval, London

About us

Creates Streets is a social enterprise that encourages the creation of more urban homes in conventional, terraced streets rather than complex multi-storey buildings. We help communities, councils, landowners and developers create places well aligned to the evidence on what is popular, healthy, beautiful and sustainable. We do this through research, arguing for policy change, and consulting to councils, communities and landowners. According to Sir Simon Jenkins, former Chair of the National Trust, 'Create Streets speaks London's language.' Our core argument is that conventional urban forms;

- are more popular, thus reducing resistance to new development;
- are provably better correlated with good wellbeing outcomes;
- provide more sustainable lifestyles;
- can easily provide the density we need to solve the housing crisis; and
- are a better long-term investment.

Create Streets has published a number of books, major reports and a range of shorter essays. These have achieved a real impact on opinion formers and on government, London and opposition policies.

Our research has also generated significant media coverage in the specialist press and in *The Times*, *The Guardian*, London's *Evening Standard*, *The Independent*, *Financial Times*, *The Daily Telegraph*, *The New York Times*, *The New Statesman*, *Private Eye*, the *Architects' Journal*, *Building Design* and coverage on BBC News and ITN News. Our patrons include Ben Page, Yolande Barnes and Alain de Botton.

The Role

We are looking for outstanding candidates to join Create Streets' as an urban designer and street design specialist. The role is suited to highly-ambitious individuals looking to gain experience in and contribute to the housing and place-making debate in Britain and internationally. If successful, you would work closely with members of Create Streets' team to shape the future of our towns, new and old.

- A degree at 2.1 or above
- Experience of using the design CAD suite (AutoCAD, Sketchup etc...)
- An interest in and awareness of the politics of housing, planning policy or the built environment
- An affinity with Create Streets' mission and values
- Experience in street and public realm design projects

Extra points for:

- A desire to get stuck in, learn quickly and take ownership of projects
- A detailed understanding of planning policy, town planning and/or built environment analytics
- Experience with QGIS, R or SPSS, SQL, InDesign

Commitment: Full/part-time (we can be flexible), based in Oval, South London.

Please submit this along with a CV and covering letter to:
